

Public Information

The Planning Accreditation Board requires this information to be posted for the
UMKC BA in Urban Planning + Design program in the School of Science and Engineering.

Student Achievement

The senior class enrolled in UPD 410 in the Fall of 2025 successfully conducted community engagement activities including an Environmental Asset Walk, a Land Use and Building Conditions Survey, and Community Visioning exercises as part of their production of a plan for the Town Fork Creek Neighborhood Association in Kansas City, Missouri. These activities successfully demonstrated community engagement activity with diverse publics as one of our student learning outcomes for our professional planning program. Their final presentation was broadly hailed as success by a variety of partners in the project including neighborhood residents, planning consultants, and city planning and public health staff. The UMKC Center for Neighborhoods provided support for this studio project.
