

DESIGN DISCOVERY

ENROLL HERE:

JUNE 3-4, 2024

ARCHITECTURE  
URBAN PLANNING + DESIGN

UNIVERSITY OF MISSOURI / KANSAS CITY  
SCHOOL OF SCIENCE AND ENGINEERING  
DIVISION OF THE NATURAL AND BUILT ENVIRONMENT

*Are you interested in Architecture or one of Architecture's related design fields, but don't really know which one or what it entails? Here's your chance to find out!*

**Design Discovery** is a summer workshop for high school or college students interested in **Architecture** or the related fields of Urban Planning, Landscape Architecture, Interior Architecture/Design, or Industrial Design.

If you are considering studies in Architecture or one of the related design fields, this is your opportunity to find out more about what college and your eventual career might be like, as well as learning some great design fundamentals and design history. We'll also cover how to prepare for college now, what to look for in a collegiate design program, and more about the architectural studies program at **UMKC**.

This non-credit course is modeled after a collegiate architectural design seminar: students learn about the design fields through simple design projects, slideshows and discussions. We will also tour important design sites near our Kansas City campus. **The class will meet from 9am-4pm each day**, with lunch provided.

### Want to find out more?

Visit our website for contact information, schedule, cost, scholarships, and how to register. Just google "UMKC Design Discovery" or use the link below.
