## Why Major in Physics

### Beyond The Classroom

Students continue to build experience by participating in our **student-led teams or organizations** such as:

- American Institute of Aeronautics and Astronautics (AIAA)
- Astro-Hour
- Design Build Fly (Aeroos)
- Esports
- Society of Physics Students (SPS)
- UMKC Robotics
- Women in Science

Students have access to the **Warko Observatory** which provides a view of the moon, Venus, Mars, Jupiter, Saturn, bright star clusters, and maybe even nebulae and galaxies.

Students can also attend **Astro-Hour** featuring discussions about recent discoveries, advancements, and unresolved problems in the fields of **astronomy, astrophysics and cosmology**.

### Personalize Your Degree

Our program allows students the flexibility to:

- Earn a **BS or BA** in Physics
- Pursue an **Emphasis in Astronomy**
- Easily **add minors**
- **Double major** with a BA degree
- Earn a Geographic Information Systems Certificate

UMKC is home to Dr. Anthony Caruso, a Fellow of the **National Academy of Inventors**, for his work with nuclear fingerprinting, high-powered microwave technology, and computer chip size reduction.

Easily earn a **master's degree** through our BS to MS program which allows students to complete a graduate degree at undergraduate tuition rates.

Students can explore their interests and gain real-world experience through **undergraduate research** with the potential of being paid.

### After Graduation

SSE connects students with industry partners in the area through **information sessions** and two **STEM Career Fairs** to discuss internship opportunities and future employment.

The innovative research conducted at UMKC can help students realize new avenues open to them and leads many to pursue **graduate degree programs or professional school**.

A physics background allows students the flexibility to **pursue a variety of career paths**:

- astrophysicists
- data scientists
- geophysicists
- medical physicists
- physical scientists
- process engineers/quality engineers
- quantum physicists
- variety of jobs within education and research
